症例報告

ツムラ修治附子末N加法により改善した ブロック治療抵抗性の外側大腿皮神経痛の1例

菅原 健*山口敏昭* 飯島哲也*内田昌子*樫本 温*

要旨:われわれは,ブロック治療抵抗性の外側大腿皮神経痛にツムラ修治附子末N加法により改善した1例を経験したので報告する.患者は(79歳女性),2年前に左大腿部痛を発症,その後仙骨硬膜外ブロック,大腰筋溝ブロック,腰部交感神経ブロックなどを施行されたが,あまり効果は無かった.八味地黄丸(TJ-7)合ツムラ修治附子末N(TJ3022)を投与したところ,約2ヵ月で大腿外側皮神経痛の症状はほぼ消失した.修治附子末は附子を減毒したものであり,抗侵害受容作用があることが知られている.修治附子末合法は様々な神経痛に対しての効果が期待される薬剤である.

索引用語:修治附子末N、外側大腿皮神経痛、八味地黄丸

PAIN AND KAMPO MEDICINE Vol. 16 (2006)

A Case Report of a Lateral Femoral Cutaneous Nerve Pain Patient
Treated with Tsumura Syuchibushi Powder N
for Ethical Dispensing (TJ-3022) Addition to Hachimijiogan (TJ-7)
Takeshi Sugawara*, Toshiaki Yamaguchi*, Masako Uchida*,
Tetsuya Iijima* and Satoshi Kashimoto

Abstract: We report a case of lateral femoral cutaenous nerve pain patient who resisted any kind of nerve blocking procedure but was successfully treated with Tsumura syuchibushi powder N for ethical dispensing (TJ-3022) in addition to Hachimijiougan (TJ-7). The patient was almost cured with these drugs. Tsumura syuchibushi powder for ethical dispensing (TJ-3022) is the processed aconiti tuber of herbal medicine whose toxicity was reduced. Aconiti tuber has antinociceptive effects. Therefore, we think TJ3022 addition is a good cure for various kinds of neuralgia.

Key words: Tsumura syuchi-bushi powder for ethical dispensing (TJ-3022), Hachimijiougan (TJ-7), lateral femoral cutaenous nerve pain, Aconiti tuber
